PROFILE

An ambitious and technically focused individual specializing in infrastructure automation, cloud technologies, and containerized applications. Grounded in Linux environments and dedicated to continuous learning. Seeking an internship opportunity to contribute and grow in DevOps, Systems Engineering, Cloud Operations, or Infrastructure Support roles.

EDUCATION

SSM Institute of Engineering and Technology, Dindigul

BE - Computer Science Engineering

2023 – 2027

Annai Vailankanni Matric. Hr. Sec. School, Batlagundu

HSC - 87.5 %

2022 – 2023

TECHNICAL SKILLS

Operating Systems: Linux (Ubuntu/Debian — System Configuration)

DevOps & Infrastructure: Docker (Basics), Core Networking, AWS Fundamentals

Developer Tools: Git, GitHub, VS Code, Google Colab

Programming Languages: Python, Java, C, JavaScript

PROJECTS

Linux & Containerization Environment (Technologies: Ubuntu Linux, Docker, Git, GitHub)

- Configured a native Ubuntu desktop environment to practice core terminal navigation, automation, and network troubleshooting utilities.
- Managed a public GitHub repository documenting system configurations, version control workflows, and basic Docker container deployments.

Cloud-Native Travel Platform (Technologies: AWS (EC2, DynamoDB, SNS, IAM)

- Co-developed a web application utilizing AWS DynamoDB for booking storage and AWS SNS for automated user email notifications.
- Configured secure EC2 cloud hosting utilizing AWS IAM roles to eliminate hardcoded database credentials and private keys.

AI Voice Assistant Module – SIH 2025 (Technologies: Python, Multilingual Voice Processing, Model Training)

- Developed a multilingual voice assistant module within a 6-member team to help farmers resolve agricultural queries.
- Built a single-button voice interface that diagnoses crop diseases and recommends suitable fertilizers entirely through spoken interactions.

CERTIFICATIONS

AWS Certified AI Practitioner – Amazon Web Services

AWS Cloud Computing Virtual Internship – SmartBridge & NASSCOM (2-Month Program)

Smart India Hackathon (SIH 2025) – Selected for Institutional-Level Round, Ministry of Education

Front-end Development Intern – Cognifyz Technologies (July 2025)

PARTICIPATION & ACTIVITIES

National Project Expo – Hindusthan College of Engineering

Gen-AI Hackathon – School of Computing

Intra-Departmental Hackathon '2K25 – SSMIET

Git & Docker Workshop – Kongu Engineering College
